## IRISH RENEW RIOTS IN BELFAST AREA

Australia Stirred by Meetings For and Against Bishop Mannix.

BELFAST, Ireland, August 16 (by the Associated Press).—Rioting was renewed in this city last night, but no firearms were used. Short Strand, a nationalist area in East Belfast, was the battleground, and contending parties threw stones at each other, the locality remaining virtually in a state of siege until after midnight. Four nationalists were arrested, and one constable was badly injured before he was taken to a hospital.

A party of Sinn Feiners returning from a sports meeting near Lurgan, County Armagh, yesterday was fired upon, one person being killed and another dangerously wounded.

Rival Meetings in Australia. SYDNEY, N. S. W., August 16.—Rival meetings were held in many parts of Australia yesterday in connection with the incident attending the arrival of Archbishop Mannix.

Catholicism were prominent in the pro-Mannix demonstration, their speakers declaring the archbishop's treatment was a gross insult to the Catholic Church. Resolutions were adopted calling for removal of the ban on Archbishop Mannix's movements and the removal of the ban on the Irish republicans.

The anti-Mannix meetings were equally enthusiastic in supporting the British and Australian premiers in their actions. The speakers declared Archbishop Mannix's utterances revealed and inspired a spirit which sought to provoke disruption of the empire and kindle racial hatred.

K. C. Resolutions Sent to Colby. NEW YORK, August 16.—Resolutions urging that the United States recognize without delay the republic of Ireland were sent yesterday by the supreme officers of the Knights of Columbus to Secretary of State Colby and to the President of the United States Senate and the speaker of the House of Representatives.

The knights as a body, the resolutions said, "record their recognition of the Irish republic as represented by its president, Eamon de Valera."

For the United States, they added, to continue to recognize the present British regime in Ireland—a regime of alien frightfulness—while denying recognition to the people's elected government, is an unfriendly act by America. They also set forth that the de Valera government is "the duly elected government of the republic of Ireland—a government that is entitled to rule by democratic right and is, in fact, ruling through the greater part of the country, functioning in every branch that affects the civil life of the people."

SHIP INVOLVED IN MYSTERY. NEW YORK, August 16.—Today failed to dispel the mystery surrounding the identity of the steamer reported last night from Boston as being in danger of sinking near Stranger Key, off the Florida coast.

A wireless received by the naval communications service here today stated that the ship was flying signal letters WHHA. Maritime records available here do not carry a ship with such letters assigned to her, and it is believed that they have been misread, as letters are not repeated in sequence in ship signals.

BUYS HOTEL FOR LEAGUE. GENEVA, Switzerland, August 15 (by the Associated Press).—Sir James Eric Drummond, secretary general of the league of nations, has purchased the National Hotel, one of the largest here, for the league of nations. The staffs of the hotel will be housed in the hotel. The site of the league's headquarters has not yet been chosen.

## Woman Aviator Loops 87 Times In Two-Mile Drop

NEW YORK, August 16.—Eighty-seven loops in the course of a two-mile airplane drop, claimed as a world record for women, disturbed Miss Laura Bromwell just enough so her first act after landing was a request over the edge of the cockpit that her maid hand up her powder puff.

Then she asked the official observers how many turns they counted, and when told they were eighty-seven, exclaimed that she counted over 100 herself.

The observers explained that weather conditions cut off their view of the first stages of her drop, and that she was turning loops when she first came in sight, and had probably made several they did not see.

A French woman flier had set the previous record at twenty-five, they said.

## REPORTS ON N. Y. CENSUS.

Committee Upholds Total of 5,621,151 City Population.

NEW YORK, August 16.—The city census committee, appointed by Mayor Hylan to investigate the accuracy of the 1920 federal census, in a preliminary report, upheld the figures fixing the population of the city at 5,621,151 on January 1, 1920.

It confirmed also the decrease in population in the borough of Manhattan in the last decade, although the report said this decrease may have been slightly less than the federal bureau announced.

GREEK PLOT EXPOSED.

Paper Had Advance Information of Venizelos Attack.

ATHENS, August 14.—The newspaper Esti today gives details of the discovery by the authorities of an alleged plot for the restoration of ex-King Constantine, involving the assassination of Premier Venizelos which the newspaper says has been hatching in Zurich, Switzerland and Athens the past two months.

A search of the offices of the reactionary newspaper Atheniki is said to have resulted in the discovery of an announcement of the attempt to assassinate M. Venizelos before the news of the attack on the premier reached Athens from Paris.

MANY SHIPS CLEAR.

15,558 Enter and Leave U. S. Ports in Six Months.

NEW YORK, August 16.—A total of 15,558 vessels, carrying an aggregate of 27,239,144 tons of cargo, entered and cleared United States ports during the six months ending June 30, according to figures made public today by the United States Shipping Board.

Among these were 9,550 ships of American registry, which carried 69.8 per cent of the cargo, as compared with 42 per cent during the same period last year.

URGES CUBAN WHARVES.

Joint Commission Makes Suggestions to End Congestion.

HAVANA, August 15.—Construction of additional wharves, the enlargement of those now existing and the building of additional warehouses for the storage of merchandise is urged by the joint American-Cuban commission recently appointed to investigate the freight congestion in Havana harbor. The public docks here, the commission found, are inadequate to care for the increased traffic of the port. The report of the commission was made public by President Menocal early this morning.

## THE WEATHER.

District of Columbia and Maryland.—Partly cloudy, with probably occasional thundershowers tonight and tomorrow; not quite so warm tomorrow; moderate variable winds.

West Virginia.—Thundershowers this afternoon or tonight; not quite so warm in north portion tonight; tomorrow partly cloudy.

## LOST EXPRESS MANAGER THREATENED SUICIDE

Adam B. Howard Disconsolate on Ship Because of Illness of His Wife.

NEW YORK, August 16.—Details of the disappearance of Adam B. Howard, general manager in South America for the American Express Company, from the steamship Martha Washington, on the way from Buenos Aires, were learned when the ship docked in Hoboken.

According to Robert F. Barrett of Richmond, Va., vice president of a Buenos Aires banking firm and a personal friend of Howard, the latter had been melancholy since the illness of his wife, who had come to the United States a short time ago.

Howard had told Dr. Samuel H. Hodgson, the ship's surgeon, he intended to commit suicide, and Capt. Francis E. Cross had a close watch placed on him. After going ashore at Rio de Janeiro July 26, Howard told Barrett and the purser he was going to commit suicide. At dinner time the steward found him sitting on the edge of the bed, with his face in his hands. He said he would go to dinner as soon as he had changed to some new clothes he bought when he went ashore. When he did not appear a search was made, but he could not be found. Officers of the ship expressed the belief he went into the bathroom adjoining, climbed through a window to the deck, jumped overboard and was drowned.

VOTE ON ENDING STRIKE.

NEW YORK, August 16.—Coastwise locals of the International Longshoremen's Association will meet here tonight to vote on ending the strike of longshoremen that has been in progress for several months. Leaders of the strikers predicted today that the men would vote favorably on the proposition.
